

## Question 1

1. Why using ItemService instead of just using Item with all methods of ItemService?

- Remember when we program, in Service class, we will need to have 2 links, 1 links to Item class and another one links to DAO class. Here, coz we use Command pattern so instead Service class links to Item, it will

## Question 2

## Question 3

Notifier: start  
Logger: start  
Car Herbie started  
Notifier: start
